Decades of experience. Industry leadership. Attentive customer service. These & more define Sir Speedy Printing and Marketing Services in Sarasota, Florida.

When General Manager Brian Doerner was looking for a new system to improve his envelope printing capabilities and reduce the cost of printing, he chose the Printware iJetColor Envelope Press. "Printing full color envelopes up to 9" x 12" is a great differentiator," stated Doerner. "The cost of consumables is significantly less than our toner-based system."

Other key factors that helped Doerner decide on the iJetColor Press were the speed and ease of use and the ability to use the iJetColor Press for all kinds of personalized mailing, as well as short-run full-color stationery.

"We are extremely happy with our decision to purchase the iJetColor Press from Printware. The installation went smoothly and the training was excellent," continued Doerner.
