

IJETCOLOR™ LABEL PRESS

IJETCOLOR LABEL PRESS BENEFITS

- **LOW TOTAL COST OF OWNERSHIP**
Significantly lower total cost of ownership than toner or flexo for short-run on-demand jobs
- **HIGH-PERFORMANCE**
Production speeds up to 60 fpm, roll to roll or integrated cutter
- **COMPLETE PRODUCTION SYSTEM**
All steel construction, Navigator RIP including computer hardware
- **VARIABLE-DATA ENABLED**
Easy-to-use variable data software through modular Variegator software.

The iJetColor Label Press brings vibrant high-resolution, full-color label printing to product identification applications at a very low total cost-of-ownership to manufacturing operations and packaging and print shops of all sizes that perfectly compliments analog printing technologies.

Advanced digital print technology usually demands a premium price – but not so with the new Printware iJetColor Label Press. The iJetColor consumables make short-run on-demand jobs a profitable reality.

The iJetColor Label Press, powered by Memjet® and perfected by Printware®, is offered as a complete digital color print solution bundled with color management workflow and an iJetColor combo consumable pack to produce short label products.

Wide range of media -paper, PP, PE, canvas, films, self adhesive labels

Full-size, intuitive, touchscreen display

THE LEADER IN PREPRESS AND DIGITAL SOLUTIONS

● **IJETCOLOR RIP & WORKFLOW**

Every iJetColor Label Press includes a preloaded computer platform with a Xitron Navigator Harlequin RIP and workflow designed to enhance prepress label and packaging operations. The workflow provides a simple and easy-to-use method for managing jobs through the iJetColor Label Press.

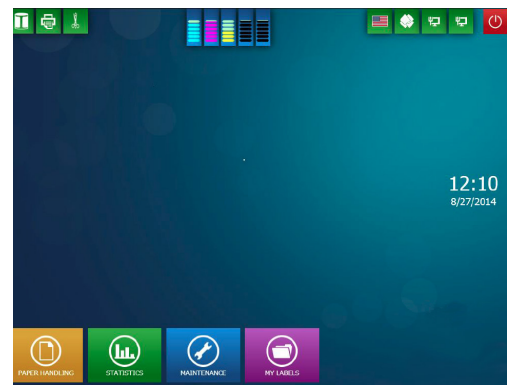

The integrated spot color matching application allows color correction that best matches PMS or existing printed colors on the stock that is being prepared for print on the iJetColor Label Press.

iJetColor Navigator Workflow User Interface

● **TOUCH SCREEN PRINTER CONTROL**

- Powerful fully-integrated printer management
- Raster and vector image management
- Intuitive GUI/touchscreen user interface
- Visual job management and stored job recall
- Multiple copy management
- Automated paper width detection
- Built-in ink monitoring and automatic cost calculation
- Integrated one-touch printer maintenance
